SITE: CoakleyBREAK: 11.9OTHER: 559345

Dear Mr. Marchessault:

This letter is in response to your request for information about the types and quantities of hazardous materials that were sent from the LDS Church's meetinghouse in Portsmouth to the Coakely Landfill Site in North Hampton, New Hampshire. I will answer the questions in the order you stated them.

First Request: Identify the person(s) answering these Requests on behalf of the Respondent. The person who prepared the response is Wayne h. Western. You can contact me by phone at (801) 240-5958. My mailing address is the Real Estate Division, 12th Floor East, 50 East North Temple Street, Salt Lake City, Utah 84150.

Second Request: For each and every Request contained herein, identify all persons consulted in the preparation of the answer. There were two ecclesiastical leaders, Bishop John A. Morrison III and president J. Barton Seymour and myself, Wayne Western, a Church employee who supplied information for all the questions, except those involving financial information.

Third Request: For each and every Request contained herein, identify all documents consulted, examined or referred to in the preparation of the answer and provide true and accurate copies of all such documents. There are no documents that deal with the subject.

Fourth Request: If you have a reason to believe that there may be persons able to provide a more detailed or complete response to any Request contained herein or who may be able to provide additional responsive documents, identify such persons and the additional information or documents that they may have. Due to the use of lay clergy it is difficult to determine if there are person(s) who have more information.

Fifth Request: Identify all persons, including Respondent's employees, who have knowledge or information about the generation use, purchase treatment, storage, disposal or other handling of materials at or transportation of materials to the site. The two ecclesiastical leader

s who live in the area and were contacted about this matter are Bishop John A. Morrison III and President J. Barton Seymour. Neither of the two men know of any hazardous materials being sent from the meetinghouse to the site.

Sixth Request: For each and every Request contained herein, if information responsive to this information Request is not in your possession custody or control, the identity of the persons from whom such information may be obtained. No such information is known to exist.

Seventh Request: If you have answered any of these requests in a previous Information Request letter, please specify the date of the letter and the request to which you have responded relevant to Coakley Landfill. No previous request has been received.

Financial/Corporate Information: These make up requests eight to thirteen. As per our telephone conversation of August 24, 1988, you said that since there had been no hazardous waste sent to the site by the Church then the financial/corporate information could be omitted.

Fourteenth Request: Have you or any person working with you or on your behalf ever accepted materials (hazardous and non-hazardous) for transportation to the site from any person? No!

Fifteenth Request: Have you arranged for disposal or treatment, or transportation for disposal or treatment, of hazardous materials at or to the site. No!

I hope these answers have provided you all the information that you need. Should you need additional information please let me know.

Sincerely,

A handwritten signature in cursive script, appearing to read "Wayne Western".
